The States with major outbreak are shared in the chart below:

Confirmed cases vis-a-vis recoveries (States with major outbreaks)

Data source: https://www.mohfw.gov.in

India entered into a total lockdown in four phases- Phase I: 25th March – 14th April; Phase II: 15th April - 3rd May; Phase III: 4th May - 17th May and Phase IV: 19th May – 31th May. Its impacting the lives of millions.

80% of India's workforce employed in the informal sector got disproportionately affected leading to mass exodus from the urban cities

Affected movement of goods and services

Poor access to health care and inadequate COVID-19 testing facilities

Border and port controls, quarantine and lockdown, monitoring and surveillance, restricted entry among places and quarantine facilities

Acute shortage of Personal Protective Kits, food and safe shelter

Inadequate awareness amongst people about symptoms, Prevention and Treatment

CAF India has been implementing large scale humanitarian projects in the country through our partners positioned in key locations across India.

CAF India launched a Humanitarian Appeal to support nations’ fight against COVID-19.

#INDIAFIGHTSCORONA
OUR COVID-19 RESPONSE WILL ENSURE

- Inclusion, protection, and support the most vulnerable and socially-discriminated groups that face higher risks and implications.
- Food and preventive kits to curb the spread of the virus.
- Support village authorities - Gram Panchayats, Primary Health Centres to identify quarantine centres.
- Ensure front line health workers, medical practitioners and police personnel’s have access protective kits and equipment’s.
- Bring information to the most vulnerable through multiple communication methods in respect to social-distancing, myths around COVID-19 and precautions to prevent the spread of the virus.
- Bring NGOs together through online consultations for cross learning and to discuss long-term mitigation plans
- Support rural population to receive benefits and entitlements from the centre and state government
