India entered into a total lockdown in three phases: lockdown 1.1 from 25th March – 14th April; lockdown 1.2 from 15th April to 3rd May and lockdown 1.3 from 4th May-17th May. Its impacting the lives of millions.

- 80% of India’s workforce employed in the informal sector got disproportionately affected leading to mass exodus from the urban cities
- Affected movement of goods and services
- Poor access to health care and inadequate COVID-19 testing facilities
- Border and port controls, quarantine and lockdown, monitoring and surveillance, restricted entry among places and quarantine facilities
- Acute shortage of Personal Protective Kits, food and safe shelter
- Inadequate awareness amongst people about symptoms, Prevention and Treatment

CAF India has been implementing large scale humanitarian projects in the country through our partners positioned in key locations across India.

CAF India launched a Humanitarian Appeal to support nations’ fight against COVID-19.

OUR COVID-19 RESPONSE WILL ENSURE

• Inclusion, protection, and support the most vulnerable and socially-discriminated groups that face higher risks and implications.

• Food and preventive kits to curb the spread of the virus.

• Support village authorities - Gram Panchayats, Primary Health Centres to identify quarantine centres.

• Ensure front line health workers, medical practitioners and police personnel’s have access protective kits and equipment’s.

• Bring information to the most vulnerable through multiple communication methods in respect to social-distancing, myths around COVID-19 and precautions to prevent the spread of the virus.

• Bring NGOs together through online consultations for cross learning and to discuss long-term mitigation plans

• Support rural population to receive benefits and entitlements from the centre and state government
